

BERZAN ÜNSAL

Computer Engineering Student | Software Engineering Intern Candidate

Muğla, Turkey | berzanunsal3@gmail.com | +90 545 130 16 21 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Engineering student with a robust foundation in software development, relational databases, and network routing. Highly adaptable and fluent in English, with international experience in the USA, demonstrating strong crisis management and cross-cultural communication skills. Actively seeking a Software Engineering Internship to contribute to impactful tech initiatives.

AREAS OF EXPERTISE & TECHNICAL SKILLS

Core Competencies: Software Development, Relational Database Architecture (ERD), Network Infrastructure, Cisco Routing.

Programming Languages: Python, JavaScript (ES6), SQL, PHP, HTML/CSS, Solidity.

Technologies & Tools: React.js, Node.js, Git, Linux CLI, Cisco Packet Tracer, MySQL Workbench.

PROFESSIONAL EXPERIENCE & NOTABLE PROJECTS

Customer Service & Operations Representative

Summer 2025

Boathouse & Colony (Work and Travel USA Program)

Maine, USA

- Delivered exceptional operational support and resolved high-volume customer inquiries in a fast-paced, multicultural environment.
- Refined advanced English communication and crisis management skills through daily interactions with hundreds of international clients.

IT Support & Technical Service Specialist

Fall 2024 - Spring 2025

Department of IT & Technology Transfer Office, MSKU

Muğla, Turkey

- Managed and maintained campus-wide internet infrastructure, including the configuration and deployment of ethernet networking cables.
- Diagnosed and repaired complex hardware and electronic equipment failures, delivering rapid technical support to university staff and students.

Smart Contract Developer – LegacyChain (Teknofest 2025)

Fall 2025 - Present

Academic Challenge Project

Muğla, Turkey

- Architected a decentralized DApp with Solidity and React for secure digital asset inheritance mechanisms.
- Engineered smart contracts featuring ReentrancyGuard and Multi-Signature authorizations, validating reliability with 30+ Hardhat unit tests.

Database Architect – Support Ticketing System

Fall 2025

Academic Project

Muğla, Turkey

- Designed a normalized relational database (SQL/MySQL) and ERDs for a large-scale customer support ticketing platform.
- Programmed advanced Stored Procedures and Views to automate ticket prioritization and streamline performance reporting pipelines.

Cybersecurity Vulnerability Analyst

2025 - Present

Siber Vatan National Capacity Building Program

Turkey

- Conducted hands-on penetration testing and vulnerability analysis within isolated Linux lab environments.
- Mitigated Path Traversal and SQL injection vulnerabilities, and exploited known CVEs (e.g., Apache CouchDB RCE) to analyze threat methodologies.

Volunteer Youth Leader

2022 - Present

Intl. Youth Center - Ministry of Youth and Sports

Muğla, Turkey

- Directed technical execution for student events, mentored peers in programming concepts, and collaborated with cross-functional volunteer teams.

EDUCATION

B.S. in Computer Engineering

2022 - Expected Grad: 2027

Muğla Sıtkı Koçman University (MSKU)

Muğla, Turkey

CERTIFICATIONS

- CCNA: Introduction to Networks** – Cisco Networking Academy & MSKU (Feb 2026)
- Siber Vatan Cybersecurity Training** – Ongoing national programmatic training
